Bunker Hill 3006

Our lead ram for this year's sale.

He is sired by a "War Horse" son and out of a Mint Gold Ranch daughter. He is our idea of what the next generation of terminal sires will look like. He features a compact body with excellent spring of rib and body mass. We really appreciated his tecticular size and his ability to look good on the move. His EBVs currently rank him in the top 1/3rd of the breed for growth, the top 1/4th for loin eye and an impressive top 7% for the Carcass Plus index. We offer very few rams for

sale who have as much potential as this ram to become an elite herd sire.

Bunker Hill 3085 Our 2nd entry into this year's NSIP Sale. He has a PWW EBV of 6, a EMD EBV of .9, and a Carcass plus index of 149 which ranks him in the top 15% of the breed. Bunker Hill 3085 is an extremely correct and well balanced ram with a moderate score. Because of other commitments we are only offering three stud rams for sale to the public this year. They consist of our two NSIP sale entries and our stud ram in the Utah ram sale. Feel free to contact about any of these rams if you would like more information.
